Professional Summary

Innovative and versatile Full Stack & Mobile Developer with expertise in the MERN stack, mobile app development, and AI-powered solutions. Currently pursuing a BSc in Information Technology (University of Ghana, graduating 2025). Experienced in leading teams, managing projects, and delivering scalable, user-friendly web and mobile applications. Skilled in React, React Native, Node.js, Express.js, MongoDB, with additional strengths in UI/UX design, AI chatbot integration, and cloud deployments (Vercel, Netlify, Render, MongoDB Atlas). Recognized as an all-rounder, bridging frontend, backend, mobile, and deployment processes to create impactful digital solutions.

Skills

- Frontend & Mobile: React, React Native, Tailwind CSS, UI/UX Design
- Backend & Database: Node.js, Express.js, MongoDB, MongoDB Atlas
- AI Integration: Gemini API, AI chatbots, recommendation & review analysis
- Tools & Platforms: Git, GitHub, Vercel, Netlify, Render, Postman, Android Studio, Unity
- Core Strengths: Team Leadership, Problem Solving, Adaptability, Communication, Continuous Learning

Experience & Projects

NCR Internship (2023) – Improved proficiency in C# & ASP.NET MVC, built console/web apps, learned ATM operations.

SIASTES Organization – Project Manager & Frontend Dev. Delivered SiastesApp website & dashboard with React, managed team delivery.

Sojourn Cabins – Frontend Dev. Built responsive booking dashboard using React & Tailwind.

Doctor Booking App – Project Manager & Full Stack Dev. Led team of 9, built with MERN stack, managed execution & integration.

HomeOfPremiums E-commerce – Full Stack Dev. Co-developed platform with React & Node.js, integrated MongoDB backend.

Quit Smoking App – React Native app with AI chatbot, persuasive system for lifestyle change.

Farm Commerce App – Personal project mobile app for farmers to list stocks and connect with buyers.

Final Year Project – Multi-vendor e-commerce & rider app with AI recommendation, review analysis, split payments using Gemini API & React Native.

FPS Game (Unity) – Solo project using Unity & C#, created immersive gameplay.

Deployment & Support – Assisted clients deploying apps on Vercel, Netlify, Render, MongoDB Atlas.
